Fixture

Refractive type III acrylic acorn on a LF style cast aluminum capital, including a finial and filigree. The aluminum filigree has square rosettes. Button photo cell and a motion sensor are included. Including 18' x 5" od round fluted aluminum pole with a decorative base, Dubrovnik / DBO pole series.

LED

UNIVERSAL LED, UL listed LED modules and drivers, combined with a vertical heat sink and into one configurable unit which gives precise light distribution. In either a type III or V pattern. It allows us to offer lumen adjustment on light output. These are 10CHIP, 500 LUMEN, 525 mA,,6v. 3.2watt per module, achieving 159 lumens per watt efficacy, 82CRI at 4000K. Beside maximizing heat dissipation surface, we also utilize convection- based heat management which creates additional air flow around the strips. Unlike a big metal heat sink where the temperature for the chips in the middle is higher than the rest, the heat of each of our modules gets dissipated evenly. This innovative heat dissipation design keeps the junction temperature low and ultimately prolongs the life of the LED strips. Our modules are covered by our standard 5-year warranty and are available in many of our fixture's designs. The drivers are dimmable 0-10v.

Finish

Thermoset polyester oven-baked powder coat, in Dark Bronze. Custom colors are available to your specification.
